Dear Parents/Guardians,

Your child is receiving a Pickens County Schools Chromebook to use during the time that school is closed due to health concerns. These devices were made available to any student in grades 3-8 that indicated a need for a device to use at home. Once normal school days resume, your child should return the device to the teacher who distributed it.

Accompanying the device is the standard user agreement that all students/parents receive when devices are distributed. Due to the quick turnaround time, these forms were not distributed beforehand. If you choose not to participate in this program, you may return the device to the school on Monday, March 16 or Tuesday, March 17. The devices will be collected in the front office during school hours.

If you have any further questions, please feel free to contact Pickens Junior High School at 706-253-1830.

All the best,

A handwritten signature in blue ink, appearing to read 'Chad Flatt', with a long, sweeping horizontal line extending to the right.

Chad Flatt, Ed.D

Principal
