**TACA Appoints Andrew S. Pinkerton as President & CEO**  
*Industry Veteran to Lead Texas' Construction Materials Association into Next Era of Growth*

**AUSTIN, Texas [September 2, 2025]** – The Texas Aggregates & Concrete Association (TACA) has appointed Andrew S. Pinkerton as its new President & Chief Executive Officer (CEO). Pinkerton brings more than 22 years of experience in the construction materials industry – most recently as Executive Director of the Cement Council of Texas, which represents the state's cement manufacturers and shippers.

“Andrew’s extensive background in the construction materials industry, combined with his proven association leadership, makes him the ideal person to guide TACA into the future,” said TACA Board of Directors Chair Rich S. Szecsy, PhD, PE, FACI. “His passion for delivering value to member companies – along with his commitment and advocacy for safety, sustainability and the communities where we operate and ultimately build – will strengthen our industry and benefit the great state of Texas.”

Prior to leading the Cement Council of Texas, Pinkerton was Director of Marketing, Communications and Public Affairs at U.S. Concrete, Inc., and earlier served as Manager of Corporate Communications & Government Affairs at Texas Industries, Inc. He holds dual bachelor’s degrees in marketing and management from the University of Oklahoma. In addition, he serves as Vice Chairman of the Board of Directors for the Clayton Dabney Foundation for Kids with Cancer.

“I have always believed that strong associations are the cornerstone of a strong industry,” Pinkerton said. “As Texas continues to grow each day, our industry plays a critical role in aligning population growth with a sustainably built environment, the conservation of natural resources and continuing to deliver the materials that satisfy the state’s unprecedented demand for aggregates and concrete. I am honored to advocate for the safe, resilient infrastructure and advanced mobility solutions our members provide today – and for generations of Texans to come.”

**[About TACA](#)**

The Texas Aggregates & Concrete Association (TACA) is the leading advocate for the aggregate, concrete, cement and other associated industries in Texas. The association represents its member companies by providing industry information to the public, media, policymakers and regulators; advocating for industry issues; ensuring member companies commit to conducting business with integrity, respect, transparency and honest communication; and creating industry training courses and materials that help members effectively manage their businesses.
