MDC Webinar - Emerging Issues at Ports: Resilience

Friday, February 16, 2017

1:30 to 2:30 pm

The Challenges American Ports face are numerous; increased traffic congestion, fluctuations in local and regional economies, infrastructure damage, shipping delays and reduced air quality in ports and surrounding communities are discussion points for the upcoming MDC webinar. Our three guest speakers are from **ICF International*** and will talk about the challenges and solutions for ports today. The speakers are Anne Choate, Cassandra Bhat and Seth Hartley.

Registration is required. **Please feel free to share this announcement with your colleagues.**
