The Steel Fabricators of New England (SFNE) is pleased to invite you to attend the Annual Dinner Meeting to be held on Thursday, December 8, 2016.

The keynote speaker will be Charles J. Carter, SE, PE, PhD, the new president of the American Institute of Steel Construction (AISC).

Charlie will present his "Charlie's Angles" vision for the future of steel. He will focus on AISC's plans to help fabricators increase usage of steel by illustrating the benefits of steel over other building materials.

The SFNE Dinner Meeting will be held at the Marlborough Country Club, in Marlborough, MA, from 5 pm - 8 pm.

### About Charles Carter

While at AISC, Carter has spearheaded a number of important initiatives, including the revitalization of the AISC Code of Standard Practice, the development of a unified Steel Manual combining both ASD and LRFD, the development of AISC's first Seismic Design Manual, and the expansion of AISC's continuing education programs into the online realm. He's also a well-known speaker and the author of numerous papers as well as AISC Design Guides on Torsional Analysis of Structural Steel Members and on Wide-Flange Column Stiffening at Moment Connections.

**Please bring an unwrapped toy to the December meeting for the Toys for Tots Program.**

The mission of the U. S. Marine Corps Reserve Toys for Tots Program distribute toys as Christmas gifts to less fortunate children in the community in which the campaign is conducted. Your toys will be donated to New England families in need during the upcoming Christmas season. Your kind donation is appreciated!
