REVEAL Gala

A note from Brian & Lisa Duensing:

The Brian Duensing Foundation (est. 2015) is dedicated to providing hope and support to families battling cancer or other serious illness. To date, our foundation has donated nearly $400,000 to pediatric cancer and childhood illness organizations, families and medical grants working to eradicate such diseases.

This year we are honored to be partnering with Children's Hospital and Medical Center working to open their **Survivorship Clinic**.

The clinic is a **long-term** follow-up program with a mission to provide evidence-based, **comprehensive care** to Children's pediatric cancer survivors and to deliver effective transition to adult care.

Often there is a misconception that when a child "beats cancer" the cancer chapter is closed and life returns to 'normal'. The Brian Duensing Foundation is prepared to **Reveal** the unfortunate truth that this often is not the case.

One out of every three childhood cancer survivors will experience **at least** one serious late effect, or medical complication, from their cancer treatment.

The team at The Survivorship Clinic includes Pediatric Oncology and Bone Marrow Transplant physicians and nurse practitioners, a nurse case manager, social worker, physical therapist, psychologist, cardiologist and additional subspecialists as needed to provide comprehensive, evidence-based care.

Services provided:

- **Specialized** clinical care, including labs, imaging studies, etc.
- Personalized **education** about the therapy & its effects for future medical care
- A comprehensive **summary of treatment** received and future screening recommendations
- Psychosocial support and access to **additional resources**
- On-going **school support**
- Assistance in transitioning to an **adult care** provider when appropriate
