Cybersecurity Certificate Program - ONLINE

FIBA's **Cybersecurity ONLINE Certificate Program** is designed for all levels and includes key concepts of cyber regulations, effective incident responses and application methods to mitigate cyber-attacks in related areas of any financial institution.

This course offers a complete exposure to cybersecurity, the threat landscape, and how these threats affect the work environments.

NEXT CYBERSECURITY ONLINE PROGRAMME
Start Date – June 3rd, 2021

The **60-day Online Course** allows participants to access materials 24/7 and apply practical knowledge through interactive activities and case studies.

The Cybersecurity Online Course is an interactive option design for participants interested in completing the certificate at their own pace.

Stay on the forefront of a rapidly changing Cybersecurity landscape and cultivate the skills needed to detect, prevent and respond to cyber threats.

Course Fee

FIBA Members: \$795 USD less \$100 Discount – Net Cost: \$695 USD

Non Members: \$895 USD less \$100 Discount – Net Cost: \$795 USD

To qualify for \$100USD discount, enter **NEM100** in Promo Code Window
during registration.
