

# AUTOMATE 2026

## March 5 | AM-Hub

EACC's AUTOMATE 2026 brings together the region's leading innovators in automation, robotics, and digital transformation. Be among the first to visit Miami & Butler Tech's newly completed Advanced Manufacturing Hub and hear from experts shaping the future of manufacturing—including panelists **fresh from CES**, the world's most influential technology event. Experience innovation up close and meet RoBee, Oversonic's flagship humanoid robot.

**Thurs March 5, 2026**

**1:30pm – 6pm**

**AM-HUB**

101 Knightsbridge Drive  
Hamilton, OH 45011

[www.eacc-cincy.com](http://www.eacc-cincy.com)

**PAOLO DENTI**

CEO, Oversonic

**KEYNOTE:** "Re-Defining American Manufacturing: Solving the Labor Shortage with Humanoid Robotics for a Smarter, Stronger Future"

**JEREMY JARRETT**

Kinetic Vision

Kinetic Vision helps manufacturers design, launch, and scale smarter products and operations by applying engineering, data, and emerging technologies like automation, robotics, and AI.

**TOM POPE**

Automation Specialist,  
Butler Tech

Butler Tech is a leading Ohio career-technical education institution providing hands-on advanced manufacturing, automation, robotics, and engineering training that helps develop the skilled workforce regional manufacturers need.
