The purpose of the PIT is to bring more funding to Monroe County from HUD by providing HUD an accurate, reliable count & survey of people who are unsheltered homeless at a particular point in time. The snapshot gives HUD the ability to see our needs as a community and to assess the characteristics of the population to fund best practice interventions in response to those characteristics. These donations will go to homeless singles and families the outreach teams encounter the night of the count.

**Donations can be dropped off to The Partners Ending Homelessness office at 560 West Main St Rochester from 8am to 5pm Monday to Friday.**

**Thank you for helping with this endeavor.**
