EDUCATE

- To read about how Scott Turner responded at his hearing, **click here**.
- To learn what some national advocates are thinking, **click here**.

ORGANIZE

The Advocacy Team has now organized our priorities:

- Promoting shelter guest advocacy
- Acting on local housing justice initiatives in collaboration with other organizations
- Supporting HJ4A (Housing Justice for All) to follow and advocate for state legislation with phone calls, emails, etc.
- Supporting NLIHC (National Low Income Housing Coalition) to follow and advocate for federal legislation with phone calls, emails, etc.

AGITATE

After months of agitating, there was success: Mayor Evans signed a strong local **Good Cause Eviction Bill** in January. Rochester is now the largest city outside of NYC to do this! It means that thousands of our tenant neighbors can feel safer in their homes. Thanks to all who helped to make this happen!

We are aware that REACH is in a period of transition, but the Advocacy Team believes that advocacy for housing justice is always needed. Especially now, as the nation is moving through very uncertain times. Speaking of housing as a human right is more important than ever. See an article that discusses this issue ***here****.*
