

REACH Walk for Awareness (Continued)

The nature of emergency shelters is changing due to the housing crisis, opioid epidemic, and difficulty accessing mental health treatment. Shelters are now on the front lines of these crises. It takes longer to stabilize individuals, arrange for treatment, and find housing because the current shelter funding model no longer works. We were excited to spread awareness about the needed changes and also to ask for sponsorship of the walk to help us bridge our current gap in funding.

Channel 8 WROC (CBS) did an excellent job covering the walk. View their story [here](#).
