

These are our additional accomplishments during the first year (2023) of Project Haven:

- Secured transitional, permanent, or supportive housing for more than 80 guests who traditionally struggle to find and move into stable housing
- The first shelter system in Rochester to operate an LGBTQIA+ shelter, which has been at 100% capacity since we opened
- Hired over 40 staff from the poorest Rochester neighborhoods
- Awarded On-the-Job Training grant through Rochester Works
- Maintained ongoing partnership with our medical provider, Health Reach, who conducts regular, on-site medical visits with our guests
- MC Collaborative social work team provided case management to all Project Haven guests

We're hopeful that 2024 will be bright!
