

CA-FEN

California Family Engagement Network

DO YOU WORK WITH FAMILIES?

Help us promote the Family Engagement Survey

Partner with us to reach more parents and caregivers across California.

We're gathering input directly from parents and caregivers on school communication, staying informed about their children's learning, and supporting learning at home.

Invite us to your workshop or event

We can promote the survey to your community or help families complete it in person — whichever works best for your event.
