

What are Bag Tags???

The tags are part of a reward system to motivate students to bring back completed Religion assignments each month. These tags are used in classrooms frequently and teachers report that students really like them.

The first assignments are not due until November 1, and there will be bag tags awarded for each chapter completed at home.

As students collect tags each month when they return an assignment they can attach them to the carabineer on their book bags. We will have some kind of prize for students that have collected a certain number in the spring.

If a student has not completed the assignment they can get the tag the next month if they bring it in. Kindergarteners don't complete written assignments so they can get a Bag Tag just for being here.
