

American Shoulder and Elbow Surgeons

ASES Specialty Day

Tuesday, March 7th, 2022
Las Vegas, NV

Preliminary Program

Tuesday, March 7th

- 12:00 pm Welcome and Announcements
Xavier A. Duralde, MD, President, 2021-2022
Jay Keener, MD, Program Co-Chair
Katie Vadasdi, MD, Program Co-Chair
- 12:05 pm Symposium 1: The Reparable Rotator Cuff Tear – Maximizing Surgical Outcomes
Moderator: **Jed Kuhn, MD**
Panel: **Bob Tashjian, MD, Leesa Galatz, MD, Alex Aleem, MD, Marc Kowalsky, MD, Felix “Buddy” Savoie, MD**
- 12:55 pm How To Video I – Rotator Cuff Repair Pearls
Dane Salazar, MD
- 1:05 pm Paper Session 1 – Rotator Cuff
Moderators: **Jason Hsu, MD, Asheesh Bedi, MD**
- Paper 1 - Failed Rotator Cuff Surgery That Led to Reverse Total Shoulder Arthroplasty: Can We Predict Who Will Fail?
Michael L. Pearl MD, Varun Singla, MD, Priscilla H. Chan, MS
- Paper 2 - The Effects of Estrogen and Testosterone Supplementation after Rotator Cuff Repair In a Murine Model
Robert Z. Tashjian, MD, Jared Zitnay, PhD, Nikolas H. Kazmers, MD, Heath B. Henninger, PhD, Peter N. Chalmers, MD, Michael J. Jurynek, PhD
- Paper 3 - Timing of Surgical Repair for Traumatic Rotator Cuff Tears
Catherine J. Fedorka MD, Nicholas Pohl, MS, Michael Curry, BA, Vineeth Romiyo, BS, Branden Wright, BS, Alex Zhang, BS, Pietro Gentile, BS, Parker Johnsen, MD, Lawrence S. Miller, MD, Matthew T. Kleiner, MD, Mark Pollard, MD
- Paper 4 - Reaching MCID for ASES, SANE, and SST following Arthroscopic Rotator Cuff Repair Does Not Correlate with Patient Satisfaction at 2 year minimum follow-up
Adam Z. Khan, MD, Alayna Vaughan, BA, Zachary S. Aman, BS, Gerald R. Williams, MD, Mark D. Lazarus, MD, Surena Namdari, MD
- Paper 5 - Identifying Psychological Barriers to Recovery Following Rotator Cuff Repair
Brian M Grawe, Cameron G Thomson, Tyler Gardner, Jorge H Figueras, Nihar S Shah, Augusto M Roca, Ramsey S Sabbagh, Jose Palacios, Brian M Johnson
- 1:35 pm Symposium 2: Glenohumeral Joint Osteoarthritis with an Intact Rotator Cuff – Choosing the Best Surgery
Moderator: **Jonathan Levy, MD**
Panel: **Larry Gulotta, MD, Sara Edwards, MD, Evan Flatow, MD, Andrew Jawa, MD, Surena Namdari, MD**
- 2:20 pm Paper Session II – Shoulder Arthroplasty
Moderators: **Joaquin Sanchez-Sotelo, MD, Eric Ricchetti, MD**

Paper 6 - Augmented Baseplates Yield Optimum Outcomes When Compared to Bone Graft Augmentation for Managing Glenoid Deformity During Reverse Total Shoulder Arthroplasty: A Retrospective Comparative Study

Ryan W. Simovitch, Christopher A. Colasanti, Charles C. Lin, Joseph D. Zuckerman, Keir Ross, Howard D. Routman, Mandeep S. Virk, Josie A. Elwell, Christopher P. Roche

Paper 7 - Patient-Related and Imaging-Based Differences Between Shoulder Arthroplasty Patients That Achieve Clinically Meaningful Outcome

Improvements: Implications for Selecting Anatomic or Reverse Prostheses
Lawrence Gulotta, MD, Kyle N. Kunze, MD, Aimee Bobko, MD, Joshua I. Mathew, BS, Joseph E. Manzi, BS, Evan M. Polce, BS, Allen D. Nicholson, MD, Anthony Finocchiaro, BS, Jennifer A. Estrada, MS, Jacob Zeitlin, BS

Paper 8 - Patient Survivorship after Anatomic Total Shoulder Arthroplasty: Are Patients Failing Before their Prosthetics? A 10 year minimum follow-up analysis

Adam Z. Khan, MD, Alayna Vaughan, BA, Akash Singh, BS, Joseph A. Abboud, MD

Paper 9 - The Importance Of Distalization Decreases With Increased Glenoid-Sided Lateralization Following Reverse Total Shoulder Arthroplasty

Justin William Griffin, Brandon Erickson, Benjamin Sears, Evan Lederman, Rueben Gobezie, Patrick Denard, Brian Werner

Paper 10 - Teres Minor Deficiency Does Not Predict Clinically Inferior External Rotation after Reverse Total Shoulder Arthroplasty: A 2-Year Matched Cohort Study

Thomas Throckmorton, Anthony Marois, Tyler Brolin, David Bernholt, Frederick Azar

- | | |
|---------|---|
| 2:50 pm | Break |
| 3:10 pm | Symposium 3: Common Acute Elbow Injuries – Systematic Evaluation and Treatment
Moderators: Mark Morrey, MD
Panel: Karimdad A. Otarodi, MD, Dominique Rouleau, MD, Jonathan Barlow, MD, Stephanie Muh, MD, Jonah Hebert-Davies, MD |
| 3:55 pm | Symposium 4: Shoulder Instability – Is Bankart Repair Enough for Routine Anterior Instability?
Moderators: Anthony Romeo, MD
Panel: Larry Field, MD, Melissa Wright, MD, Peter MacDonald, MD, Ian Byram, MD, Seth Gamradt, MD |
| 4:25 pm | How To Video II – Open Latarjet
Brad Edwards, MD |
| 4:30 pm | How To Video III– Pearls for Bankart
Seth Gamradt, MD |
| 4:35 pm | How To Video IV – How to Remplissage
JT Tokish, MD |
| 4:40 pm | Paper Session 3 – Instability
Moderators: Michael O'Brien, MD, Peter Chalmers, MD |

Paper 11 - No difference in recurrent instability after open Bankart versus arthroscopic Bankart with remplissage for anterior glenohumeral instability with subcritical glenoid bone loss

Jonathan F. Dickens, MD, Jordan G Tropic, Michael D Bedrin, Bobby G Yow, Hunter Culp, Kelly G. Kilcoyne

Paper 12 - How Much Glenoid Bone Loss Needs to be Restored with a Latarjet?

Ryan Rauck, MD, Christopher Brusalis, MD, Amir Jahandar, MS, Samuel A. Taylor, MD, Andreas Kontaxis, PhD

Paper 13 - Capsuloligamentous Laxity is a Risk Factor for Failure in Near Track Lesions Following Arthroscopic Anterior Shoulder Stabilization

Albert Lin, MD, Stephanie A. Boden, MD, Shaquille Charles, Jonathan Hughes, MD, Bryson P. Lesniak, MD, Mark Rodosky, MD

Paper 14 - Arthroscopic Anatomic Glenoid Reconstruction With Distal Tibia Allograft Has Excellent Outcomes at Medium-Term Follow-Up for Treating Anterior Shoulder Instability with Bone Loss

Ivan Wong MD, Sara Sparavalo, Jie Ma, Sarah Remedios

Paper 15 - Clinical outcomes of Arthroscopic Latarjet as a Revision Surgery after Failed Arthroscopic Bankart Repair. A case-control study

Emilio Calvo MD, PhD, MBA, Lika Dzidzishvili, Claudio Calvo, María Valencia

5:10 pm NEER Award

5:20 pm Symposium 5: Avoiding Common Mistakes in Shoulder Arthroplasty
Moderators: **William Levine, MD**
Panel: **Howard Routman, MD, Vani Sabesan, MD, Charles Jobin, MD, Mike Wiater, MD, Augustus Mazzocca**

6:00 pm Reception
