

# AMERICAN SHOULDER AND ELBOW SURGEONS FOUNDATION

## 2024 National Shoulder and Elbow Week Host Site Application May 13-17, 2024

Thank you for applying to serve the ASES Foundation in promoting its mission to foster scientific advances and enhance the study of shoulder and elbow surgery. The National Shoulder & Elbow Week (NSEW) program has been a unique opportunity to not only raise funds, but promote our society and its members through grass-roots community collaboration with patients, providers, administrators and industry.

This application will give the Patient-Centered Initiatives Committee an opportunity to learn more about your proposed event. As a host site you become a member of the ASES Foundation's Patient-Centered (PCI) committee with monthly calls. Collaborating frequently with your local subcommittee members is essential for success. Thank you for your time and interest in helping our Foundation and Society.

Please address the following items when explaining your interest in hosting a 2024 NSEW regional event:

- 1. Proposed host city/region**
  
  
  
- 2. Subcommittee members (3-5 suggested)**
  
  
  
- 3. Goals for NSEW event (topics, themes, speakers, attendance, and fundraising targets)**  
**Note: In 2022, \$25,000-\$100,000 was raised per site from ticket sales and sponsorships**
  
  
  
- 4. Potential venues**
  
  
  
- 5. Potential local uses for grant money (research, patient education, initiatives, future events etc)**

**Please submit your application by: March 15, 2023**

**Send to: Robert Harkey, ASES Foundation Senior Development Coordinator at [rharkey@asesfdn.org](mailto:rharkey@asesfdn.org).**
