The Lumen Christi Institute's Newman Forum for High School Students presents

Big Questions and Catholic Scientists

A Science-and-Religion Fair for High School Students

February 5, 2022, 9AM-3:30PM

University of Saint Mary of the Lake
Mundelein Seminary

Join us at beautiful Mundelein Seminary for a day full of scientific presentations from the country's premier Catholic scientists. We'll hear a keynote lecture, and then have three "lightning rounds," where students will choose from 4 mini-lectures each round, whichever sparks their interest most. Then we'll gather for our "reverse science fair," and students will have the chance to ask scientists questions one-on-one. There will also be opportunities for prayer.

Lightning round topics will include

- Is the universe made for life?
- God & the dinosaurs
- Earthquakes and Jesuit priests
- What is a human being, and when does life begin?
- Evolution, Creation, and faith
- Modern science, the Catholic Church, and Galileo
- Genes, CRISPR, and religion
- Could aliens be real?

Presented in partnership with the Society for Catholic Scientists and the McGrath Institute for Church Life. Cosponsored by the Archdiocese of Chicago Vocations Office and Mundelein Seminary. For more information and to register visit
