

# DIGITAL CREDENTIALS

Gain new skills. Boost your resume

Digital credentials (also known as micro-credentials) focus on competencies gained through coursework in our Flex courses, a flexible self-paced format perfect for busy working professionals looking to develop their skills in a specific area. Earned in less time than an academic certificate or degree program, digital credentials clearly showcase what an earner is able to do.

## Flex Courses

## Value of Digital Credentials

- Close the Skills Gap – Each credential is designed to quickly provide people with the skills they need to be successful in the workplace.
- Visibility of Skills – Digital credentials provide information about what people know and can do.
- Verifiable - All badges issued by CCV can be digitally verified with one click through our Credly online badging platform.

CCV is looking to partner with employers to endorse our credentials, interview credential earners, and inform the creation of future credentials to meet the needs of Vermont's employers.
