Many businesses continue to face new and reoccurring challenges as the Covid-19 pandemic disrupted our way of life. But many businesses have also experienced some silver linings from the pandemic, which we will hear about from Ms. Kurrle. There is light at the end of the tunnel for businesses as there are resources available and initiatives being taken to help businesses navigate out of the murky waters of the pandemic. Lt. Gov. Gray will address the initiatives her office is taking, and Mr. Musgrave will share resources available through the Chamber and how your business can get involved to help direct The Future of Business.
