SASKATCHEWAN EARLY CHILDHOOD ASSOCIATION

Mission

To provide support services for our membership, promote professional development opportunities, and create unification provincially. To advocate for: children and families; high-quality learning; and all those working within the profession.

Vision

A Saskatchewan where children, families, educators, and communities work together to create the strongest possible foundation for lifelong learning and well-being.

3 YEAR GOALS

GROWTH

We will grow SECA's reach, capacity, relationships and expertise so members benefit from more useful resources, services, professional learning and opportunities to connect across Saskatchewan.

ADVOCACY

We will listen to members, share sector knowledge, strengthen relationships with decision-makers and partners, and increase public understanding of the essential role of early learning and child care in Saskatchewan.

HOME SUPPORT

We will expand SECA's capacity and resources to create a stronger home-based child care community, with connections and supports that reflect the unique needs and contributions of home providers.

VALUES

Accountability	Collaboration	Dedication
Professionalism	Progressiveness	Transparency
