

August 12, 2020

Dear O'Hara Community,

As we prepare to commence the 2020-21 school year, I wanted to reach out to assure you that Cardinal O'Hara High School's priorities remain clear: ensuring practices that promote the health and safety of our O'Hara community, continuing to provide a rigorous education for our students, and offering opportunities for O'Hara students to learn academically, athletically, and spiritually.

The Phased School Reopening Health and Safety Plan is comprehensive and detailed. Our school administrative team has worked these last months to ensure that it addresses all of the facets of school reopening in a safe and structured environment. I encourage you and your family to read this plan thoroughly and to reach out to our principal, Mrs. Eileen Vice, with your questions.

O'Hara is finishing preparations for September. We have purchased classroom cameras for hybrid/virtual learning and sanitizing stations and products among other items to assist with the transition back to school. Our Board continues to support these enhancements to facilitate a healthy and safe learning environment.

As Chairman of the O'Hara Board, I am proud of all that our school community continues to do to focus on educating our students while prioritizing the health and safety of the members of the O'Hara community. It is vital that parents, faculty, staff, students, and the entire O'Hara family work together as partners in the education of our young men and women. These students deserve it and it is our mission to ensure it.

God bless you and your family!

Sincerely,

A handwritten signature in black ink, appearing to read 'Cary Toner', written over a white background.

Cary Toner  
Chairman, Cardinal O'Hara High School Board
