

Accelerating Academics in an Enriching Environment

tuition-free, public charter schools serving grades K-8

2018-19

Student Placement Information/Request Form

As we engage in the process of putting classes together, we use numerous factors to ensure balanced classes. These factors include academic needs, gender, and social relationships and behaviors. In addition, we know that you, as parents/guardians, have information about your child that can be helpful to us as we prepare class rosters.

If you would like to provide information that we should consider during the formation of class rosters, please complete this form and return it to your school's **Front Office** no later than **Friday, May 25, 2018**.

Teachers will create classroom rosters first, since they know the students best. Then, the administration will review rosters with these requests in mind and determine if any changes will be made.

While you may note a teacher preference, placement in a specific teacher's classroom cannot be guaranteed. Multiple factors are considered in student placement; parent requests are one factor among many.

Parents will be informed of class placement in August.

Student's Name _____

Grade Next Year _____ Current Teacher _____

Characteristics/attributes of your child: (use reverse side if necessary)

Parent's Name _____ Date _____
