

***Accelerating Academics in an Enriching Environment***

**tuition-free, public charter schools serving grades K-8**

2019-20

## Student Placement Information/Request Form

As we engage in the process of putting classes together, we use numerous factors to ensure balanced classes. These factors include academic needs, gender, child temperament, teaching style that might best fit learner needs, and social relationships and behaviors. In addition, we know that you, as parents/guardians, have information about your child that can be helpful to us as we prepare class rosters.

If you would like to provide information that we should consider during the formation of class rosters, please complete this form and return it to your school's **Front Office** no later than **Friday, May 24, 2019**.

**While you may note a teacher preference, placement in a specific teacher's classroom cannot be guaranteed. Multiple factors are considered in student placement; parent requests are one factor among many.**

Parents will be informed of class placement in August.
