Stars Technical Assistants - We're Here to Help!

Although your practice may look different right now, your Stars Technical Assistants (TA) can still support you in providing safe and enriching experiences for your children and their families. Reach out to your Stars TA to discuss your individual needs specific to your program, and we will work with you side-by-side to help navigate these challenging times.

While we tailor your support for your program's needs, these are a few popular options that we are offering:

Meeting State Covid-19 Requirements: In conjunction with the weekly webinars on the Reopening your Child Care document, we can help you develop and fine-tune your systems and build your leadership capacity. Your TA will work with you to help you navigate the guidance from this document. You can then design a plan that works best for your program while addressing your children, staff, and families' health and safety.

Community of Practice: These groups gather through Zoom weekly to discuss common concerns and problem-solve solutions. Let your Stars TA know if you would like to join a team.

Give your Generalist TA a call to identify ways we can help.
