

Simplified travel protocol 3-8-21

- **Applies to:** Asymptomatic UVA Health Team Members returning from travel to states outside Virginia within the US, regardless of vaccination status.
- **What:** No post-travel quarantine will be needed for domestic travelers unless UVA, VDH or CDC protocols require quarantine. **Team Members are expected to test 5-7 days after return from domestic travel.**
 - Testing at the asymptomatic test clinic→travel screening at door. **Call 3-9534 Prior to, or upon return to schedule**
- **Does not apply to:**
 - Those with confirmed exposures, symptoms, international travel (cdc recs).
 - Cases when UVA, VDH, CDC travel guidance applies
- **Risks:**
 - Presence of highly transmissible strains may result in further covid surge(s)→following test results
 - Unvaccinated traveling employees may be responsible for importing covid more than vaccinated→Ongoing Covid Vax work to improve vax acceptance
 - Lack of reporting of personal travel→following tests, depends on employees
