

- **Joshua Disatham**, Lisa Brennan, A. Rebecca McGreal, Caitlin Logan, Sue Menko, Ales Cvekl and Marc Kantorow for “Hypoxia Controls Lens Fiber Cell Remodeling by Regulating the Elimination of Mitochondria, Endoplasmic Reticulum and Golgi Apparatus through HIF1-directed Transcriptional Regulation of BNIP3L Expression.” Charles E. Schmidt College of Medicine/College of Science Integrative Biology PhD Student.
- **Cody B Jackson**, Amber Delmas, Judith Pignac-Kobinger, Maria T. Abreu, and Mark Sundrud for “Multidrug Resistance Protein 1 (MDR1) as a novel therapeutic target for a unique subset of Crohn’s disease”. Charles E. Schmidt College of Medicine/Scripps MD/PhD Student.
- **Jennifer Prevot**, Julie Servoss, Nirmala Prakash, for ‘The Effectiveness of a Medical School’s Curriculum on Student Competency, Knowledge and Practice when Treating Lesbian, Gay, Bisexual and Transgender-Specific Health Disparities’. Charles E. Schmidt College of Medicine MD Student.
- **Jasmine Martin**, Simran Sidhu, Nabil Benhayoun, Michael Dedonno, Warren Brenner for “Efficacy of gemcitabine and nab-paclitaxel in pancreatic cancer in an elderly population”. Charles E. Schmidt College of Medicine Internal Medicine Resident.
- **Adele Stewart**, Raajaram Gowrishankar, Rodeania Peart, Keeley Spiess, Gwynne L. Davis, Maureen K. Hahn, Randy D. Blakely for “Sex determines the behavioral and biochemical impact of dopaminergic dysfunction in the DAT Val559 mouse model”. Charles E. Schmidt College of Medicine/Brain Institute Post-Doctoral fellow.
- **Andrea Cippitelli**, Gloria Brunori, Jennifer Schoch, Akihiko Ozawa, Lawrence Toll for “Neuroadaptations at nicotinic acetylcholine receptors and behavioral responses to nicotine in a rat model of neuropathic pain”. Charles E. Schmidt College of Medicine Research Assistant Professor.
