

ASCEND NEURO For kids grades 6-8 EXPLORERS

The **ASCEND (Advancing STEM-Community Engagement through Neuroscience Discovery)** "NeuroExplorers" program is a semester-long neuroscience learning opportunity at the Florida Atlantic University campus in Jupiter for kids grades 6-8 made possible by the FAU Stiles Nicholson Brain Institute.

Led by professional neuroscientists and their trainees and using cutting-edge educational tools, including handson virtual and augmented reality applications, **kids will be provided bimonthly neuroscience lessons** and activities at the FAU Stiles-Nicholson Brain Institute in Jupiter. In addition, participants will have the opportunity to learn outside the Brain Institute through virtual resources, including podcasts and webcasts that feature recent neuroscience discoveries, brain games, and 360° science videos. Neuroscience lessons will build from cells/neurons to neural networks to brain disorders. Attendees will graduate as "Jr. Neuroscientists" and tour a lab where they will meet working scientists!
