REGISTRATION

\$60 Early Bird until 02.19.21

\$75 General Registration on or after 02.20.21

\$150 Webinar Registration + Intimate Discussion 02.20.21

SESSION DESCRIPTION

Featuring one of the world's leading pediatricians in the field of lactation, Dr. Newman will discuss:

What They Didn't Teach You About

Breastfeeding in Your Training addressing what physicians, lactation professionals, and others are not being told about breastfeeding in their training; ***When the Baby Is Not Getting Enough***

From The Breast addressing why babies don't

gain weight and what can be done about it and

Late Onset Milk Supply addressing the reasons

many with an abundant milk supply end up several months later with an unhappy baby not gaining well, and wrongly diagnosed with reflux or an allergy to breastmilk. Concluding with

Hypoglycemia and Jaundice including leading

causes for these conditions and treatment strategies that support breastfeeding. This program will help clarify and provide solutions, dealing with rising concerns in infant feeding and milk transfer without undermining breastfeeding.

OUR SPEAKER
