

LIVE WEBINAR
APRIL 22, 2021, 10AM-1PM

*Maternal Mental Health
Disorders Impacts On
Infant & Child Development*

*Emily Bernard, MA, IBCLC
with 2020 Mom*

This session will focus on maternal mental health disorders such as postpartum depression and anxiety, which are the leading complications of childbirth and can negatively impact infant and child development. Although treatable, many women are never diagnosed nor receive treatment.

REGISTRATION

**EARLY BIRD: \$25 UNTIL 4/8/21
GENERAL PRICE: \$40 ON OR AFTER 4/9/21**

bit.ly/maternalmentalhealthdisorders

**CONTINUING EDUCATION
2.5 R-CERPS & 3 CONTACT HOURS**

IF YOUR ORGANIZATION MUST PAY BY CHECK TO REGISTER OR FOR INQUIRIES PLEASE CALL 323-210-8505 OR SEND AN EMAIL TO INFO.BREASTFEEDLA.ORG. FOR MORE INFORMATION ABOUT THE EVENT VISIT WWW.BREASTFEEDLA.ORG

OBJECTIVES

- 1.The participant will be able to identify the range of maternal mental health disorders.
- 2.The participant will understand the prevalence of each disorder.
- 3.The participant will learn about the national framework to improve early identification and intervention and become familiar with evidence based therapies that can be deployed in numerous settings, including lactation service providers, pediatric offices, NICUs, home visits and more.
