Healthcare Solutions

Telehealth Services

Telehealth

- Telehealth is the use of interactive audio and video telecommunications system that allows real-time communication between the originating (patient location) and distant site (provider's location)
 - Statutorily allowed services
 - Medicare restricts procedure codes providers can submit as telehealth
 - Patient geographic location restrictions

Healthcare Solutions

Originating Sites

Where the beneficiary is located

Telehealth

- Telehealth originating site fee increase
 - Q3014 allows \$27.02
- Added new codes to telehealth list on permanent basis
- Adding new codes on temporary basis until end of Public Health Emergency (PHE) or December 31, 2021
- View list of codes
 - <https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes>

Location of Originating Sites

- Location of Medicare beneficiary at time of service
- No reimbursement for place of service (POS) patient's home
- No facility fee for hospitals, clinics or other eligible locations outside of rural designation
- Eligible originating site criteria eligible for Q3014

Originating Site Regulations

- Payment to physicians, practitioners, and originating sites made only on assignment-related basis
- Telepresenter not required as condition of payment unless telepresenter is medically necessary as determined by physician or practitioner at distant site

Telehealth Demonstration

- Alaska and Hawaii federal telemedicine demonstration projects
 - Serve as originating site
 - Use store and forward
 - Modifier GQ
- Reference
 - <https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/Downloads/clm104c12.pdf>

Question on Originating Site

- **What does it mean that geographic and originating site restrictions have been waived?**
 - A. The originating site is where a patient is located when they receive telehealth services. These normally include a clinical settings, such as physician offices and hospitals. Additionally, the originating site's geographic location normally must be in a county located outside of a Metropolitan Statistical Area (MSA) or a rural Health Professional Shortage Area (HPSA) located in a rural census tract to be eligible for telehealth services.
 - For the duration of the public health emergency, CMS is waiving the geographic and originating site restrictions. Patients may receive telehealth services in any setting, including their homes.

Healthcare Solutions

Distant Site

Where the practitioner providing the service is located

Eligible Distant Site Medical Services

- Distant site service must be:
 - Furnished via interactive two-way audio/video telecommunications system
 - Furnished by physician or authorized practitioner
 - Furnished to eligible telehealth individual
 - Located in telehealth originating site
 - An eligible telehealth service

Telehealth Services List

- Complete list of Telehealth Services (1/14/2021)
- <https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes>
- Includes additions

Medicare Telehealth Category 2021

- Category 1 Codes similar or already on the Telehealth List permanent codes
- Category 2 codes not already on the Telehealth list.
- Category 3 codes only allowed during the PHE

Additions for 2021

- Telehealth services permanently added to the list include the following:
 - Group Psychotherapy (CPT 90853)

2021 Telehealth Expansion

- CMS has developed a classification system for telehealth services
- Category 1 are services that will be permanent even after the public health emergency.
- Represents 45 percent of the telehealth services (112 services) covered by CMS as of January 1 and includes standard E/M visits, group psychotherapy, neurobehavioral status exams, and short home visits
- 99437-99438, patient's home can still serve as a qualifying originating site when the patient is being treated for a substance use disorder or a co-occurring mental health disorder, as permitted by the SUPPORT Act
- <https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes>

Category 2

- CMS covered via telehealth on temporary basis until December 31, represents 57 services of all telehealth services covered on January 1 and includes services such as emergency department visits (all levels), physical therapy, occupational therapy, and speech pathology.
- Under review for possible permanent status for 2022

Category 3

- Category 3 services remain on list through the calendar year in which the PHE ends
- Includes 82 services of all telehealth services covered on 1/1/2021 and includes services such as audio-only telehealth visit codes, initial hospital and nursing home visits and home visits for new patients
- Coverage for this group of services will end with the expiration of the PHE

2021 Evaluation and Management (E/M)

- Changes only apply to office or outpatient codes 99202-99215
- History and exam elements no longer code selection requirement
- Components code selection
 - Medical Decision-Making (MDM) or total time
- MDM and Table of Risk revised
- Noridian E/M webinars provide details

Prolonged Add-on Code

G2212

- G2212 -Prolonged office or other outpatient evaluation and management service(s) beyond the maximum required time of the primary procedure which has been selected using total time on the date of the primary service; each additional 15 minutes by the physician or qualified healthcare professional, with or without direct patient contact

We're putting patients first.

We pledge to put patients first in all of our programs – Medicaid, Medicare, and the Health Insurance Exchanges. To do this, we must empower patients to work with their doctors and make health care decisions that are best for them.

This means giving them meaningful information about quality and costs to be active health care consumers. It also includes supporting innovative approaches to improving quality, accessibility, and affordability, while finding the best ways to use innovative technology to support patient-centered care.

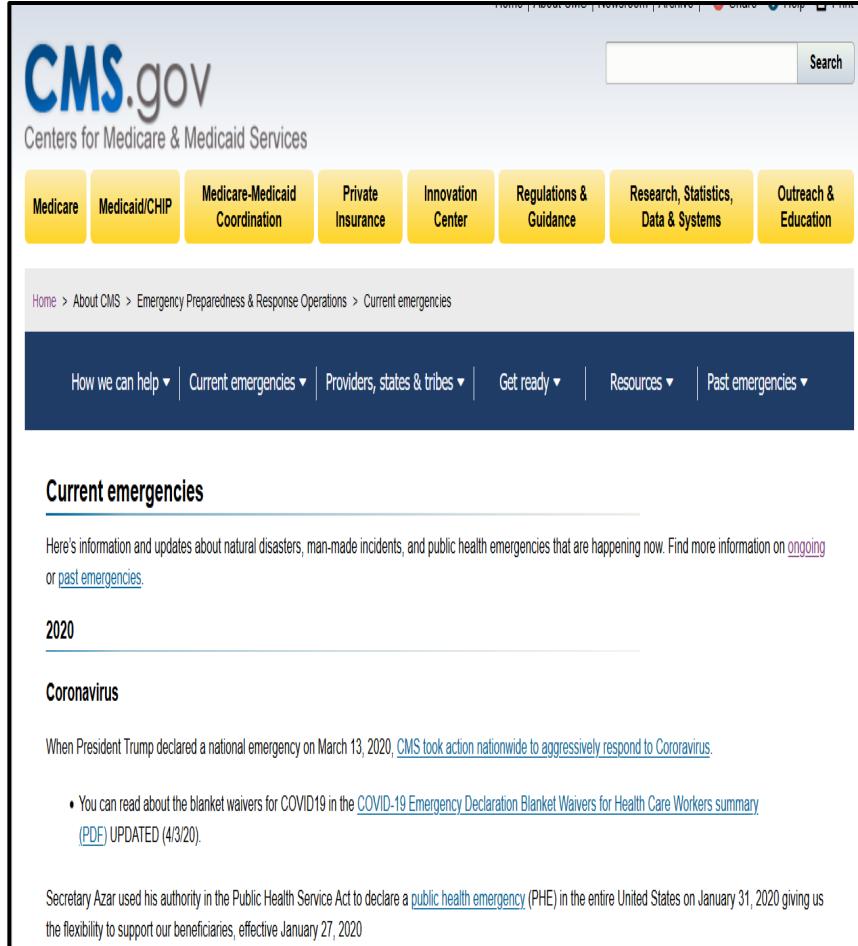

But we can't and we don't do all of this alone. [Learn more](#) about how we are working together to ensure all

Visit the [CMS Current Emergencies page](#) for information and updates related to COVID-19.

To support our providers, a COVID-19 Hotline has been established to help with COVID-19 related inquiries. The hotline number is: 866-575-4067. Customer services representatives will be available Monday-Friday from 8 a.m.-6 p.m. CDT. The hotline will answer questions on provisional billing privileges and enrollment flexibilities afforded by the COVID-19 waiver for health care facilities and providers, as well as on Part A, B, and DME accelerated/advance payments related to COVID-19.
