The CSU Pueblo Office of Alumni Relations has partnered with PCI (also known as Publishing Concepts) to produce our new alumni directory. Based in Dallas, PCI publishes directories for

educational institutions, fraternities, sororities and military organizations across the nation. This project allows the Alumni Association to receive important updates to our database so we know more about our alumni and how we can better serve you and future alumni.

All updates are returned to CSU Pueblo, so that our database remains current. PCI is only collecting information for purposes of the directory. It is a great way to stay connected to the CSU Pueblo alumni community!

Using the newly collected information, PCI will produce a hardcover publication that is available for purchase. The published directory will allow you to reconnect with old classmates. Electronic editions will also be available. Everyone will be offered the option of purchasing the CSU Pueblo Alumni Directory, **but no one is under any obligation to purchase a copy in order to be included in the publication, the association/foundation sees \$0 from the purchase of these directories.**

I ordered a directory/package over the phone and would like to cancel my order. How do I do this? Contact PCI's customer service helpdesk at 1-800-982-1590 / PCIService@publishingconcepts.com and they will take care of this for you.

Please be assured that this directory project is coordinated with the CSU Pueblo Office of Alumni Relations. If you have any questions, please feel free to call our office at (719) 549-2858 or alumni@csupueblo.edu

Indian Raids and Massacres: Essays on the Central Plains Indian War by Jeff Broome covers incidents in Kansas, Colorado and Nebraska from 1864-1870. Each chapter is a story unto itself and the book can be read in any order as well as from the beginning to end. There are two sides to these violent events, and, while the focus is on the Euro-American perspective, the contrary perspective of the Native American is also presented. Broome relies on primary-source documents usually ignored by other authors. Untapped Indian depredation claims housed in Washington DC give the reader a deeper understanding of the terrors of Indian raids, especially when experienced by new settlers to the region. What emerges represents a bold and new history not found in other published accounts. These chapters reflect more than 20 years of Broome's research and writing on the Central Plains Indian War.
