

Charitable Giving Mission Statement

The Hilb Group strengthens our mission to support and protect our clients and communities through charitable contributions, employee volunteerism and community involvement.

Support Strengthen Serve

The Hilb Group encourages and supports its employees and agencies in giving back to their communities through charitable donations and volunteer efforts. We are proud of the engagement that our agencies and employees have been making over the years to help their communities. At the corporate office, we have supported the Richmond Children's Hospital, the Feed More food bank, and the Will Wade basketball summer camp to name a few.

Many of our agencies also both raise money and volunteer their time. At the Hilb Group of New England, 40 walkers took part in the American Cancer Society Making Strides walk last fall and raised \$8304 for the event. Last summer, when West Virginia experienced devastating flooding, City Insurance employees donated money and time to helping people in need in the surrounding area.

If your agency or employees are helping their community in some way, we'd love to hear about it! Send an email to Julie Watson at jwatson@hilbgroup.com and let us know.
