Case Management Training:

Suicide Prevention and Timely Intervention

LA COUNTY Homeless Services & Housing

Created and presented by HSH's Clinical Team, this 2-hour session will support frontline staff in recognizing and responding to participants who may be experiencing suicidal thoughts. This training will use the Columbia Protocol (or Columbia-Suicide Severity Rating Scale) as the primary tool of engagement for all levels of staff.

Tuesday
9/29/2026

9am - 11 am

REGISTER HERE

Learning Objectives:

1. Recognize behavioral, verbal, and situational warning signs of suicide

2. Engage in supportive interventions with individuals in distress

3. Assess the level of risk for suicide and determine level of urgency

4. Respond according to internal protocols, including escalation pathways and ensuring immediate safety

5. Connect individuals to appropriate resources, including safety planning

6. Practice self-care and utilize debriefing tools after crisis
