Advancing A/E/C Firms from Within

OUR VISION YOUR FUTURE

SDA IS AN ORGANIZATION WITH A SINGULAR FOCUS ON THE INDIVIDUAL.

SDA focuses on Education and Community Outreach while also hosting social events for our members. Educational Programs cover one or more of our five core areas known as PEGs and include the following:

5PEGS

- Human Resources
- Finance
- Office Administration
- Marketing
- Project Management

Monthly Networking Meetings

Hosted once a month during the lunch hour, with the exception of January, July and December. These meetings serve as a professional development opportunities covering one of the five PEGs.

Half-Day Seminar

Focuses specifically on one of the five PEGs by diving deep into a specific topic and explaining what it is, how it is used in the workplace, and lessons learned. Attendees are encouraged to interact and ask questions to enhance their skillset and help their firm gain a competitive advantage.

EDSymposium (annual business meeting)

A three-day conference facilitated by SDA National. At the conference members attend informative sessions about the latest industry trends and network with members from other chapters.

EDConnect

A series of webinars hosted in the Fall that can strengthen your knowledge and sharpen your skills. For convenience, all presentations can be viewed from any device, anywhere.
