

## Math IXL Assignment Summer 2020

### Directions for Rising 5th Grade Students

1. Be sure to log-on to <https://www.ixl.com/> using the username and password provided to you by ICS.
2. Complete the skills listed below at the **grade level you just completed** to review over the summer. As a rising fifth grader, you will review **fourth grade** skills.
3. In order to receive credit, summer work must occur on or after June 14, 2021 and be completed by August 29, 2021. This allows two months to complete the requirements for active practice. Time is best accrued over a number of practice periods throughout the summer in order to maintain skills.
4. Parents should sign the bottom of this form to indicate that your child has completed his/her summer work.
5. Please complete this checklist of required skills indicating the percentage achieved and the date each skill is completed. Students are asked to achieve a **minimum of 80% mastery** for each of the assigned skills.
6. IXL summer work is worth 30 points if each of the assigned 15 skills is completed to 80% mastery. Points will be deducted if all skills are not completed or 80% mastery is not achieved.
7. You are welcome to work on additional skills if you would like, however, these will not be graded.
8. **Please return this form to your Math teacher on the first day of school.**
9. If you have any questions regarding math summer work, please contact [lmetzbower@theimmaculate.org](mailto:lmetzbower@theimmaculate.org)

\*\*\*Please be aware the skill numbers are sometimes adjusted by IXL.com over the summer. If the letter/number combination on the IXL website does not align to the list of assigned skills, please work on the skill that matches the **description**.\*\*\*

Student Name: \_\_\_\_\_

IXL Skills	Percentage	Date Completed
<b>A.13</b> Writing numbers up to one million in words: convert digits to words		
<b>B.3</b> Add two numbers up to seven digits		
<b>C.3</b> Subtract numbers up to seven digits		
<b>D.3</b> Choose the multiples of a given number up to 10		
<b>D.29</b> Estimate products: multiply by 2-digit numbers		
<b>E.3</b> Division facts to 12		
<b>E.11</b> Divide 2-digit numbers by 1-digit numbers		
<b>N.7</b> Elapsed time: word problems		
<b>O.4</b> Identify mixed numbers		
<b>P.14</b> Add and subtract fractions with like denominators		
<b>S.1</b> What decimal number is illustrated?		
<b>T.4</b> Add and subtract decimals: word problems		
<b>V.3</b> Points, lines, line segments, rays, and angles		
<b>AA.1</b> Find the perimeter of rectangles using formulas		
<b>AA.7</b> Find the area or missing side length of a rectangle
