

### **Written instructions for Glory to God:**

1. You will need two electronic devices with recording/sound/video capabilities (iPhone, iPad, Computer) and a set of earbuds or headphones.
2. The video to assist you in this recording is linked in the newsletter article.
3. Words and music are also in this article.
4. You will need to practice singing and familiarize yourself with the video prior to attempting to record.
5. When it is time to record you will use device No. 1 to play the video. Your ear buds will be plugged into device No. 1 so that you can hear the video. (the recording you make will only be your voice- we do not want to hear the piano recording on your video-we will add that in later) It is easier to sing in tune if you only use the earbud in ONE ear. . . so you can hear yourself singing and tune accordingly with the other ear.
6. You will use device No. 2 to make your recording. If you are using your phone for this purpose then you will need to turn it on its side and use the landscape mode for best results.
7. Turn on both devices and proceed with making your recording. Repeat as necessary until you are happy with the finished product. IMPORTANT: We only want to hear your voice part recorded. The video you are singing with should only be audible to you through your earbuds.
8. Upload your video into an email and send it to Jeff at [jjones@gcpcusa.org](mailto:jjones@gcpcusa.org)
