

A Night at the Drive-In Procedures

We look forward to a night together while staying apart- just about as socially distant as possible! This fall, Idaho Diabetes Youth Programs, the Lions and other partnering organizations, will be hosting a Night at the Drive-In in communities across our service area. We look forward to seeing you, and not spreading COVID. So we ask all participants read and agree to the following:

- If someone in your household is sick, or is awaiting results of a COVID test, we ask your family please stay home this time. (If you are unfamiliar with the list of COVID symptoms please contact your physician.)
- Cars will park at least 6 feet apart.
- Each family should stay inside of their own car or truck bed while at the event. Feel free to bring blankets for added comfort and warmth- fall evenings can be chilly!
- It's recommended families use the restroom at home before the event. Most of the venues have their bathrooms open, but not all of them. If you are curious about the location you are signing-up for, let us know 208-891-1023 ext. 1.
- If you do use the restroom, please follow social distancing, wear a mask, wash your hands per CDC guidelines, and return to your car afterwards.
- We will provide each person who RSVPs with a movie snack and bottle of water at the gate. The snack bar/food court will be closed. You are welcome to bring your own food if you'd like more/something else to nibble on!
- There will be a few event chaperones to greet you at the gate and walking around throughout the event. If you need something they can support you.
