Balcony Repairs to Begin Soon

The Property Committee has engaged O.C. Mitchell Construction to make plaster and paint repairs to the arches over the balcony. The work will require scaffolding, which will be erected by Associated Scaffolding. While the scaffolding is in place, the balcony will be CLOSED due to safety regulations. Only the balcony will be affected; all other uses of the Sanctuary will continue as scheduled. We expect the work to take at least two weeks, with the scaffolding to be removed within a week after the work's completion.

The Property Committee greatly appreciates your patience.

**Dawn Shelton, Property Committee Chair
Tom Bloom, Business Administrator**
