Safe Sex 101

Wrap it Up!

- Condoms are not only for preventing unwanted pregnancies.
- Condoms and lube both reduce the risk of sexually transmitted diseases.

Communication is Key.

- Do not be afraid to talk to your partner about what they may or may not be comfortable with when it comes to sex.
- Respect each other's boundaries.

Screening Saves Lives

- There is no need to feel embarrassed to get tested, you are being responsible by doing so.
- Fill out an interest form through the QR code on the back of this brochure to learn about getting screened for free!
