

## Seminar

You know they're too young to drink...  
You know drugs can hurt them...

But theres more to it  
than that.

# A Night to Know the Truth

Listen in as young adults share stories of their addiction and recovery and how they kept their drug use hidden from their parents. Hear from prevention professionals as they teach on current trends, root causes of addiction and means of intervention.

Did you know that in Minnesota:

70%

of prescription pills that are abused come from family or friends.

68%

of MN students choose not to use because of their parents disapproval.
