

Ahh, the MCA!

I've played with the same group for years with an occasional substitute. Our group even won the tournament several years back (thanks, Christopher!), which is quite a departure from our usual finish. There are some interesting facts surrounding that tour victory. Ask one of the tour members and prepare to have them regale you about a young man driving par fours! Turns out he played his high school golf at Majestic Oaks. Who knew?

The outing is held at Majestic Oaks Country Club. They are equipped to host such events as they have two eighteen hole courses as well as a par three for those who want to work on their short game. The event was held at a different site a few years back but quickly returned to Majestic Oaks.

The tournament is a good reason to get together and golf, but I think for most of the participants it's a chance to catch up and reminisce. Most of the people attending the outing have been in our industry for many years, so we all know each other very well. Many of us have worked together at some point in our careers, and we consider each other friends regardless of being competitors in the business world.

Sad to say our group did not win this year, but we had a great time at a great event. They have a nice dinner after golf, and even hand out a prize or two. I'm giving a shout out to those who volunteer their time working the event. I also want to give a heartfelt thanks to the Emcees of the awards portion of the night as no person should have to deal with that much verbal banter.

So here's to next year as I plan on returning to glory with an astounding victory! This would be much more realistic if several of the players that were in attendance this year do not show up next year. You know who you are!
