Timothy Breidegam Track

The Timothy Breidegam Track was renovated in 2005. The old six-lane track was also replaced with an eight-lane track by Mondo. The surface, Mondo Super X Performance, is the same surface used in the stadiums which host the Summer Olympics. There were also renovations to the structure of the grandstand with new seating added on both sides of the field.

Moravian University's football stadium, Rocco Calvo Field, has a seating capacity of approximately 3,500 spectators. This venue is used for home games of the Moravian Greyhounds football team and provides a community atmosphere for fans and players alike. The stadium is part of the university's athletic facilities, which support various sports programs.

Rocco Calvo Field

The Rocco Calvo Field was renovated in 2018 as Moravian replaed the existing synthetic surface with Shaw's Sport Turf. Back in 2005, the natural grass surface was replaced with a synthetic surface produce by Sportexe. Sportexe Momentum™ is designed to be dense, firm, fast -- a superior surface to handle the demands of top level athletics. There were also renovations to the structure of the grandstand with new seating added on both the home and visitor sides of the field in 2005.

Lodging

A quick search for the July 9-12 dates reflects there is no shortage of hotel options. Most hotels charge reasonable room rates for Thursday and Friday with rates escalating on Saturday night. Bethlehem/Allentown hotels range from \$125 rates to \$400 per night rates. Hotel tax is 10%.

- We are still working with Discover Lehigh Valley to secure (lock-in) several hotels with rates at the \$125 to \$160 rate.
- We're not finding access to any hotels offering more than 15 to 20 room blocks.
- These rates are not significantly lower than what travelers can find on-line, in February

My recommendation is for clubs to start their search early.

- There are three Choice Hotel locations within 8 miles of Moravian, two within 3 miles.
