

THE ARNOLD P. GOLD FOUNDATION

The Gold Humanism Honor Society is sponsored by the Arnold P. Gold Foundation to create the Gold Standard in healthcare. The Foundation strives to ensure that care and respect always govern the relationship between practitioner and patient.

In the Third Year of medical education students are selected for this honor society through a peer nomination process that considers one's demonstrated commitment to compassion, empathy, altruism, and professionalism. In a similar fashion, students also select those residents and faculty members that they wish to honor with this recognition.

Please join us in welcoming this year's newest Gold Humanism Honor Society members!

STUDENT INDUCTEES FROM THE CLASS OF 2026

Sierra Byrd , <i>Columbus</i>	Will Glawson , <i>Macon</i>	Brandon Merrill , <i>Columbus</i>
