

# Ideas for Easter at Home

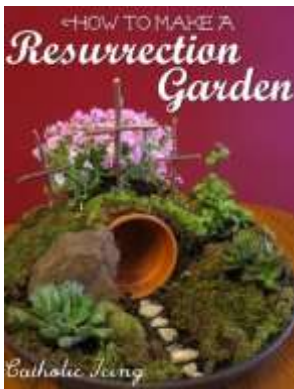

Dear Parents,

For me, this time at home has brought some unexpected changes to my neighborhood. This week when I walked my dog, my normally quiet neighborhood was full of noise and people: entire families were taking a walk, children were playing in their yards while parents finished long overdue yard projects and people were sitting on their porches relaxing!

While I am disappointed that we cannot share all of the beautiful lessons that were planned for Sunday School, I hope that you can use this time to bring Lent and Easter into your homes. We will continue to give you a lesson each Thursday, in the newsletter, and below are some additional ideas for you to consider from one of my favorite resources, Building Faith. Take this time to enjoy making eggs together, create a different kind of Easter basket, whatever helps you to connect to this holy season.

God Bless you and your families,

Monica Ness, Director of Christian Formation
