The BELOVED Community

The Reset & Revitalization Initiative

The Vision:

To foster life transformation and provide the support needed to regain stability for every unhoused family with children who calls us for help.

We believe no family should have to live in a hotel.

Columbia's Transitional Housing Options Are Limited for Families. We Provide a Reset for Families Experiencing Homelessness.

Columbia's family transitional housing options are limited to 6 family rooms available at the city's only shelter. Many who cannot get into these rooms choose to stay in low-cost, pay-by-the-week hotels for up to 6 months while waiting on affordable housing. Their average hotel rent for a month is $1600.

Our Extra Mile Homes program provides families a rent and utility free home for 4 to 6 months while the parent(s) meet regularly for money management and life coaching. They are expected to save 30% of their income toward overcoming any of their barriers (first month's rent and deposit, old utility bills, etc).

Currently, we have 1 house on our campus in active use.

The Reset and Revitalization Initiative

Donation Opportunities to Support Transitional Housing Initiative

1

Donate toward Phase 1:
> Purchasing and demolishing house at 207 St Joseph. Constructing a transitional duplex.
> Purchasing house at 205 St Joseph for a single family.

Each year, the duplex will provide 4 unhoused families a chance to reset their life while we help them identify a stable housing opportunity and provide individualized coaching. The house will provide the same services for 2 families each year.

2

Donate toward Phase 2:
> Constructing a transitional 6-plex on existing Love Columbia land.

Each year, the 6-plex will provide 12 unhoused families a chance to reset their life while we help them identify a stable housing opportunity and provide individualized coaching.
