## HOW TO PLACE YOUR ORDER

Our pricing structure is based on full cases and split case lots. It is economically favorable to order full cases, but we will split cases for your buying convenience and requirements.

	QTY	SPLIT	SPLIT	CASE	CASE
EXAMPLE	UNIT	PACK	PRICE	PACK	PRICE
J8719	EA	6	5.50	36	5.00

If you order 36 EACH, your cost is \$5.00 per piece.

If you order 6 EACH, your cost is \$5.50 per piece.

If you plan to order more than half a case, it is economically worthwhile to order the full case.

Volume discounts are available. Please contact your salesperson or nearest showroom for details.

## SUGGESTIONS

1. Decorate Christmas trees with bright, long-life miniature lights and use sufficient quantities of lights; at least one string per foot of tree (for example, 7 foot tree uses 7-10 strings).
2. Choose a specific theme for each tree and keep your stock where it is easily accessible to your customers, preferably in baskets under the tree.
3. Put your customers in a festive "buying" mood. Soft lighting, holiday music, pine scent, etc., will help create the proper holiday atmosphere in your store.
4. If you have limited space, use wall trees or small tabletop trees. It is essential to theme your merchandise and display it on trees for maximum results.
5. Make use of your ceilings for display of ceiling decorations.
