

To our valued customers:

As I am sure most of you are aware, the situation with getting product from overseas has been getting progressively worse. Containers are increasingly difficult to obtain and in order to secure a container it requires a large premium of 4 to 5 and even 6 times what they were at the end of last year.

None of this could have been anticipated when we priced our 2021 line last year, which was based on normal freight costs.

Therefore after much consideration we regrettably feel it is necessary to add a 3% ocean freight surcharge to the bottom of each invoice on the total value of the product. The surcharge will be applied on all unshipped orders starting from January 1, 2021. This 3% surcharge does not come close to covering the additional costs we are incurring. The vast majority of the extra costs are being borne by us.

We appreciate your understanding about this very difficult situation we are facing.

Thank you,

The Adlers
