

Thriving in Community SIG

June 9th 3:30-5:00 Room 206

The June 9th meeting of the Thriving in Community SIG will focus on developing community-based groups to support aging in place. There will be a presentation by Cherie Hennig from Brevard Mountain Neighbors Network, part of the Village Network. This will be followed by group discussion including our local neighborhood groups (Eg.: Elder2Elder, Neighbors Helping Neighbors).

Some of the discussion topics will be:

- Ways to stay in your home for as long as you can, remaining safe and with support from your community
- What are the common elements of these groups?
- What will make groups work and last?
- What would you hope to get out of such a group?
- What would keep you from joining such a group?
- As the group ages and their needs increase, what are the services for which you would be willing to pay if volunteers are not available? How are costs determined?

This will be the last SIG until September. Please join us!
