SUMMER 2017 COURSES & EVENTS

from the director - summer 2017

We are lucky at the Reuter Center to enjoy displays by the Asheville Quilt Guild. In our contemporary building, these intricately stitched works of art connote Appalachian tradition and add warmth, texture and color to the space we call home. Patterns and quilts themselves are handed down from generation to generation, although each generation and individual has an opportunity to express a unique personality and circumstance in the created object. Quilting thus allows for continuity and change. In a region where resources are sometimes scarce, worn-out clothing or even cast-off flour sacks may be recycled and repurposed as the components of a quilt's design. Old and new pieces of fabric are transformed when the quilter artfully arranges them and makes them part of a new whole. Because many traditional quilters create beautiful and useful objects out of scraps and what is "left over," quilts reflect a maker's thriftiness and ingenuity. Sometimes they are crafted during long, lonely nights when other chores are complete. Sometimes quilters gather at "bees" to quilt together, to make the work go more quickly and to share the fellowship of creating together. Whether quilts are made by individuals or groups they are meaningful because they are both beautiful and useful. A well-made quilt will warm generations of a family.

Most of the quilts on display at the Reuter Center are contemporary and sophisticated, but even simple designs can evoke a legacy of meaning. The Log Cabin quilt pattern did not originate in the US, but many people consider it the quintessential American quilt design. It is a relatively simple form but one that seems to be full of meaning. In its most traditional form, one side of the design should be in light colored fabric to represent the walls of the sunny side of a cabin, while the opposite side is worked in darker colors. Most significantly, the center of each block is usually made in a red or warm colored fabric to represent the hearth, a symbol of security, warmth, abundance and comfort, the qualities central to our sense of home. It's tempting to read a log cabin quilt as a statement of values, the importance of solid walls and a foundation and an expression of the centrality of all that is symbolized by the warmth and light and security of the hearth.

Writers who urge us to find opportunities to thrive in life's second half sometimes use the image of the fire as a gathering spot, as a symbol of the energy and warmth that is critical in the expression of an engaged and purposeful life. The geriatrician Dr. Bill Thomas observes that we live in a busy adult world that measures, ranks and sorts people by what they can do. Too often we cut people loose from this world when they retire and don't provide patterns for how to move to a life of "being" that also includes purpose. Thomas reminds us, "For millennia, elders have been the repositories of their people's lore. They have stored our most cherished beliefs and then transmitted them to the young. The image of an elder by the fire recounting long-told tales to a circle of children has a powerful pull on us and, indeed, is a function of elderhood that has been endangered by the vast and growing entertainment industry. . . . The rebirth of elderhood must include the capacity for elders to tell and for others to receive the wisdom that only stories can hold. . . . Storytelling helped older people become the elders they were meant to be."

Metaphors can clarify ideas, but we also know that sometimes the line between what we take seriously and what we take literally can present challenges for us. Thomas's vision of elders sharing wisdom through stories implies a desire to return to a simpler time (without questioning how real that vision is or what it meant in a time when we had to sit around fires). Fighting our way through the clutter of media or connecting with the next generation can be much more difficult in an era where we fail to make physical and emotional connections with one another either within or across generations. At one point the television replaced the hearth as a gathering spot, but in most cases now we choose our own media and stream it on our own devices. The gathering of "vital elders" venerated and followed for their wisdom seems a fantasy that is harder to translate into the reality of "being" an elder.

Perhaps we should look to the example of the quilt as both symbol and object of a new vision of being an elder that also can be shared forward. OLLI and the Reuter Center are a kind of quilting bee. We bring together the elements of our lives that we want to repurpose or re-use. Sometimes we add something new if it expresses a vital understanding of who we are. Together, building programs and curriculum and ultimately an "institute," we create something new and beautiful, something richer than all of its individual parts but meaningful because of them. A quilter is a story teller, dispensing wisdom and sharing values in a language that every generation learns to read for itself. When we gather at the Reuter Center, we bring together the varied fabrics of our lives. We build and shore up foundations and walls, but when we gather we warm ourselves and one another. We welcome new generations to learn from us, to gather at our hearth, but we recognize and value the opportunity to learn from one another.

NAMETAGS: Write your name on the list at the desk outside the Reuter Center office, and we will make you a nametag. Wearing a nametag at all OLLI events and classes helps people get to know you.

ONECARDS: OLLI members may obtain a OneCard, the official UNC Asheville photo ID card, in Highsmith University Union. With a OneCard you may receive UNC Asheville discounts at local businesses and at university special events. If you obtain an annual sticker for your OneCard through UNC Asheville Police, you may ride Asheville Transit at no cost. You may deposit funds on the OneCard either in the OneCard office or in the dining services offices in Brown Hall. If you tell the associate that you are an OLLI member, you will be given the faculty/staff rate, and your dining services funds will not expire. You can add funds when your balance gets close to zero. Those funds can be used at any of the dining facilities on campus.

VEHICLE REGISTRATION & PARKING: OLLI members may park in campus parking lots designated as “non-resident student” provided they display a current OLLI parking decal on their rear window. To get your parking decal, go to olliasheville.com/forms and click on the link for Vehicle Registration Form. When you bring in your old decal or paperwork that reflects the vehicle has been traded, you will receive a replacement decal at no charge.

Please be aware that several construction projects are underway on the UNC Asheville campus during the summer months. While none of them are near the Reuter Center and may not directly affect parking near our building, there may be times when parking spaces are in short supply or when roadways in some parts of campus are blocked. Campus security will be checking parking decals and giving tickets for parking violations.

Raise Every Voice: Gospel Music in the Mountains will be presented by Bruce Nemerov and Friends. Grammy-winning musician Bruce Nemerov offers an inspirational program of the religious music found in Western North Carolina during the 19th and 20th centuries including camp meeting songs, shape-note songs, spirituals and hymns. The performance highlights Bruce's skill with the guitar and banjo along with the talents of Kevin Kehrberg (bass, guitar, vocals) and Jeff Keith (mandolin, guitar, vocals) of Warren Wilson College's music department. Along with the music, they will describe the background and evolution of the region's varied religious music history. \$5 donation at the door; WNCHA members free. Program sponsored by the Western North Carolina Historical Association.

The Dystopian Novel: A Full Look at the Worst

Languages, Literature and Writing

6 weeks: June 12, 19, 26,
July 3, 10, 17

Mondays, 9-11 a.m.

In our current "post-truth" and "alternative fact" environment, it should be no surprise that George Orwell's 1949 novel *1984* has become a 2017 best-seller. After an election where voters responded to a promise to "make America great again," we should understand why Sinclair Lewis's 1935 novel *It Can't Happen Here* has risen from being unranked to a #5 position on Amazon's Classic Literature lists. Although these works are hardly beach reading, together we can have fun contemplating the value and appeal of the dystopian novel as a genre and contemplate whether it offers us meaningful ways to look at the future. In the words of Thomas Hardy: "if way to the Better there be, it exacts a full look at the Worst." **Required text:** *It Can't Happen Here* by Sinclair Lewis, ISBN-13: 978-0451465641 or any edition and *1984* by George Orwell, ISBN-13: 978-0451524935 or any edition. (Both are available in free online editions.)

Video clips, experiential learning and group discussion will enhance our understanding of sustainable medicine. **Required text:** *Homeopathy: Beyond Flat Earth Medicine* by Dr. Timothy R.
