

Student Internships

Rowley & Company LLP is a local Northwest Indiana CPA and Consulting firm located in Michigan City, IN. We offer a variety of tax, accounting, assurance, and consulting services to clients throughout Indiana, Illinois, and Michigan.

We invite you to participate in our student internship program! As an intern at Rowley & Company LLP, we offer the following incentives:

- Gain hands-on experience working in the tax and assurance departments – you can determine which branch of accounting is the best fit for you
- Experience through on-the-job training and real, meaningful work engagements, how your academic experience translates to the professional environment
- Learn directly from Staff Accountants, Senior Accountants, Managers and Partners with specialized experience and technical knowledge across numerous industries and services
- Exceptional students who show growth are often offered positions at the Firm, soon after their internships have been completed

Also, to note:

- We have clients you often see at mid-sized firms. An untrue stereotype of small firms is that we do not have challenging, sophisticated clients. This is simply not true at Rowley & Company, as we have plenty of complex, advance work to keep you challenged
- Most CPAs at Rowley & Company have Top 10 accounting firm work experience (Crowe, BKD, BDO). We bring Top 10 accounting firm sophistication to a small firm
- Plenty of opportunities to climb the corporate ladder upon performance merit
- Most importantly, we offer work/life balance with flexible scheduling and 4-day work weeks in the summer months

Qualifications:

- Must be enrolled as a part-time or full-time student in an accounting program and be eligible to sit for the CPA Exam upon graduation
- Outstanding academic performance with a minimum GPA of 3.0
- Must be able to work a minimum of 20 hours a week
- The ability to work effectively in a team environment with all levels of client personnel in various industries
- Excellent written/verbal communication and collaboration skills
- Be eligible to work in the US without sponsorship during the intern program and as a full-time employee

We are always recruiting new talent and update our online "Careers" page regularly at www.RowleyandCo.com. For questions, or to submit your resume directly, contact Eddie Castellanos, Business Manager, at ecastellanos@rowleyandco.com.
