

Wilmington City Schools realizes it is important that every student graduating from Wilmington High School has the tools to help them succeed. We have pledged that every individual student at Wilmington High School will be provided a personal Chromebook for his/her educational needs while attending WHS. Thus the WCS 1:1 program started in the 2016-2017 school year. (1 device: 1 student)

The technology device allows students to create, innovate, explore, develop, research and collaborate with efficiency. Providing students the opportunity to use technology on a daily basis will help them to develop the skills they will need for success after graduation.

Microsoft founder, Bill Gates, is quoted as saying:

If you give people tools, and they use their natural ability and their curiosity, they will develop things in ways that will surprise you very much beyond what you might have expected.

Unfortunately, in these economic times, not every high school student has the capacity to afford their technology fee associated with this project. That is why **we're asking for your help to sponsor a child(ren), to help cover their technology fee.**

What does your sponsorship provide? Your sponsorships help to provide a Chromebook for a student for the entire school year. This will help the child with learning advantages such as access to the internet; collaboration with fellow students and teachers; open the door for creativity and innovation, word processing, and spreadsheet creation, as well as the opportunity to gain lifelong computing skills.

How much is a sponsorship? For just \$50, you can sponsor a child. You can sponsor as many children as you wish.

If you wish, please take a moment to indicate that you will help sponsor a child by calling me at 937-283-7500, emailing me at curt.bone@wilmington.k12.oh.us or by returning the enclosed response form. Let me thank you in advance for your time and support. I look forward to speaking with you soon.

Sincerely,

Curt A. Bone
Director of Business Operations
